GENERAL HOUSING POLICY: To be considered eligible for graduate campus housing, the Student must be actively enrolled and attending classes at the University as a full time law, pharmacy or graduate student.

- a) Student housing is assigned for the specified time frame (a binding agreement) unless the Student is graduating or withdrawing from attendance at the University or provides proper notification, as required, of his/her intent to live off campus or is removed from housing by decision of the University.
- b) Regulations of the University limit routine use of the living space to the assigned resident(s).
- c) Assignment to campus housing shall be handled on a 'first come – first served' basis, based on the date of receipt of the application and deposit.
- d) The University reserves the right at any time to alter a Student's housing assignment, particularly to consolidate the use of living space and reduce vacancies.
- e) If a Student has a vacancy in his/her place of residence, another Student may be assigned at any point in time. Advance notice of a new resident cannot be guaranteed.
- f) If, in the University's judgment, it is reasonable to believe that a Student is misrepresenting information about him/herself, others, and/or creating an environment intended to deter another person from moving in or causing that person to move out under duress, that Student will be held accountable, which may include removal from campus housing.

DEPOSIT: A non-refundable, non-transferable payment must accompany the request to live in campus housing. Assignment to campus housing is dependent upon the receipt of a \$500 deposit. For a first time Resident, this payment serves as a **security deposit** and is therefore not credited towards the cost of housing. For a current Student who is returning to campus housing, the payment will appear as a credit in that the security deposit is already on record with the University.

CHANGE TO COMMUTER STATUS: If a student pays the deposit and then notifies the Office of Residence Life by August 7, 2017 (or January 2, 2018 if they are a new student in the spring semester) of his/her decision to commute (written correspondence received as of this date) then the applicable housing charge, excluding the \$500.00 deposit, will be credited to the Student's account with the University. After August 7, 2017, the housing agreement is binding and will be required to be paid in full by the Student, whether or not the Student takes occupancy.

If the Student notifies the Office of Residence Life of his/her decision to commute by January 2, 2018 (written correspondence received as of this date) then the applicable residency charge will be credited to the Student's account with the University. After January 2, 2018 the residency charge is binding and will be required to be paid in full by the Student, whether or not the Student has vacated the premises.

WITHDRAWAL FROM THE UNIVERSITY: The residency fee, excluding the deposit, will be credited to the Student's account if the Student has officially withdrawn from the University (by choice or decision of the University) prior to the first day of classes of a new semester. As of the first day of classes for that semester, the residency fee is binding and will be required to be paid in full by the Student.

RESIDENCY BILLING: Residency charges are billed to the Student's account with the University on a per semester basis. These charges are non-refundable and non-transferable. Failure to meet the established payment policies and deadlines releases the University from any obligation to provide housing accommodations.

ASSIGNMENT OF HOUSING: Students are assigned to housing in accordance with the established housing procedure. Each University-owned apartment or house has a specific capacity; unless indicated otherwise, there is no opportunity to 'buy-out' space in order to reduce the total number of occupants.

While priority is given to law, pharmacy and graduate students, a non-traditional undergraduate (status and circumstances as determined by the University) students may be assigned to one or more unfilled spaces at any point in time.

Barring unforeseen circumstances, Residents may remain in their assigned living space during times when classes are not in session, specifically scheduled vacation periods and the semester break. Residency during the summer months (mid-May through mid-August), if provided, may require a temporary or permanent reassignment within University housing.

SPECIAL HOUSING ACCOMMODATION REQUEST: The following information and expectations apply to this component of the housing agreement. "Appropriate administrator" refers to either the Assistant Dean for Law Student Affairs or the Assistant Dean for Student Affairs in the College of Pharmacy.

- a) It is the responsibility of the Student to inform the appropriate administrator of the specific nature of his/her disability and preference to receive a special housing accommodation.
- b) Written documentation from a medical doctor or licensed professional with expertise in the area of diagnosis must accompany the Student's request.
- c) If approved, the appropriate administrator will work directly with the Residence Life office in an effort to provide an accommodation that, in the University's judgment, is appropriate and reasonable.

CARE OF ASSIGNED HOUSING: Student responsibilities are delineated as follows:

- a) The Student is responsible for contacting his or her Resident Advisor to have the condition of their assigned space documented upon arrival and departure and whenever a housing reassignment occurs.
- b) A failure to complete the established check-in or check-out process voids any claim the Student may have in disputing assessed damages and/or fines.
- c) A security deposit is required to confirm residency for the academic year. This deposit is refundable if the Student graduates or chooses not to renew residency for the next (upcoming) academic year or if the University is discontinuing this living arrangement. The refund will be based upon the documented condition of the assigned space, minus any repair and/or replacement costs and/or fines assessed.
- d) Damage charges for repair or replacement, parts and labor, will be assessed on the basis of the extent of physical damage and/or missing University property as determined by University personnel.
- e) The preliminary check by Residence Life staff is not the final word in damage assessment. Building Supervisors and personnel in Facilities Management perform inspections after campus housing is vacated and may identify repairs and related issues not noted by Residence Life staff. Student(s) may therefore be held accountable for damages and/or missing University property not noted as such at the time of departure.
- f) The Student shall maintain his/her assigned space (both private and shared with other residents) in a clean and sanitary condition at all times and will be held accountable for a failure to do so. The University does not provide housekeeping for any occupied living space. Students are therefore fully responsible for daily care and upkeep of the premises.
- g) Upon vacating the premises, charges will also be assessed if the assigned space has not, in the University's judgment, been left reasonably clean and properly set up for new and/or returning resident(s).
- h) Do not dispose of electronics (any item with a power cord) on campus. Do not leave any electronic devices behind. Many contain hazardous materials that require special treatment for recycling. Any abandoned device will subject its owner to a disposal fee.

- i) A request for review of any damage assessment charges and/or fines must be submitted in writing and received by the deadline as stated in the correspondence.
- j) Unless a Student has accepted responsibility (in writing, at the time of check-out) for specific damages, or information makes it reasonable to conclude that a particular Student is responsible, all repair and/or replacement costs are divided equally between the Residents.
- k) The Student is expected to return the key to their place of residence at the time of departure. Otherwise, the key is presumed to be lost and billing will occur for a new door lock and replacement keys for the living space.
- l) Unless a Student has accepted responsibility for damages (in writing, at the time of check-out) or information makes it reasonable to conclude that a particular Student is responsible, all repair and/or replacement costs are divided equally between the occupants of the living space.

DECORATIONS & SET-UP: Throughout the period of occupancy, the Student is fully responsible for adhering to the following stipulations for use and care of the assigned space:

- a) All University property must remain in the living space, and may not be removed to accommodate personal belongings. University property may not be disassembled.
- b) To protect University furniture from damage due to weather conditions, furniture should not be moved outside. University personnel reserve the right to retrieve any University property placed outside and Student(s) will be charged the replacement cost for the item(s.)

- d) In accordance with the Massachusetts General Law Chapter 269 Section 10J, weapons are prohibited on the grounds of the University with the exception of law enforcement officers duly authorized to carry such weapons. Weapons, firearms, fireworks or any incendiary or projectile- type device (including, but not limited, to, recreational devices like paintball guns and sling shots) are not allowed in the residence areas. The University has no reports or records pertaining to lead-based paint and/or lead-based paint hazards in such housing. Prohibited or restricted items will result in accountability and twenty-four hours to remove the item(s) from campus, unless the situation presents a clear and present danger that must be rectified immediately. A failure to cooperate will lead to further action by the University.

PUBLIC AREAS OF OCCUPIED SPACE: Students are collectively responsible for reasonable care of the exterior of the apartment or house and adjacent property. Damage to exterior areas that appears to be malicious or resulting from misuse may be billed to the residents. Students are subject to assessment of repair costs (parts and labor) and/or fees in the case of common/public area damage of undetermined responsibility. These charges are not subject to individual review or modification, in that the University is holding residents of a living unit collectively accountable.

PERSONAL PROPERTY: The University does not assume any responsibility or liability for a Student's personal belongings or property including, but not limited to, money, clothing or other valuables. The Student understands and agrees that it shall be his/her own obligation to insure his/her personal property. - e) If a Student has reason to believe that the condition of University property (furnishings, in particular) could cause harm or injury, he/she should immediately notify University personnel and refrain from using the item until it is checked. Examples of prohibited items and activities include, but are not limited to: a funnel, beer pong table, and ice luge.

Paperwork is available at the Office of Student Activities and Leadership Development in the St. Germain Campus Center, which shall approve or disapprove each request separately. Requests must be received at least one week in advance of the planned event. The action taken will be in writing to the sponsoring Resident(s.) The stipulations for an approved event include the following:
 - a. Alcoholic beverages are restricted to beer and/or wine. The University reserves the right to place limits on the amount available for consumption.
 - b. Approval will indicate the specific area designated for service use and/or consumption. The sponsoring Resident(s) is/are responsible for restricting the activity to this area.
