Graduate Study at
Western New England University

Students interested in graduate study must submit an application for admission and provide all required documentation for their intended program of study. In order to register for a course(s) as a degree-seeking student, you must be accepted to the University. Applicants for most programs can be considered for permission to register for a course(s) while his/her application is pending. Upon receiving permission to register, you can take up to six graduate credits under tentative status*. You will be considered tentative status until your application is complete and an official admission decision is issued. Financial aid is not available to students classified as tentative status.

If your application is completed, and you are officially accepted into your program prior to the end of the term, you may be considered for federal and University financial aid at that time.

* Tentative status is not an option for international candidates.

When to Apply for Admission

Western New England University has a rolling admission policy, not a set admission deadline, which gives students greater flexibility in applying. Admission decisions are typically released within two to three weeks of your application being complete. The University urges prospective students to apply as early as possible in relation to the anticipated start date.
