

Download and install Echo360 Personal Capture software (PCAP)

Echo360 Personal Capture is a stand-alone application that runs on either Windows or Mac, and allows you to create recordings to supplement in-class materials.

Creating recordings is as simple as selecting the inputs and clicking Record. You can edit the recording if you want, then publish the recording to a class. YOU select which recordings are published, meaning you can create as many recordings as you want, select the best one for class, and delete the rest.

Once published, the recording is available to students, or you can configure availability on a schedule if you prefer.

Note: PCAP for Windows is *not* supported on netbook computers.

Echo Personal Capture (PCAP) software is best suited for instructional content capture outside the classroom. It is typically installed on faculty laptops and provides a faculty-driven workflow. It captures audio, local screen and webcam video. It is supported on both Windows and Mac computers.

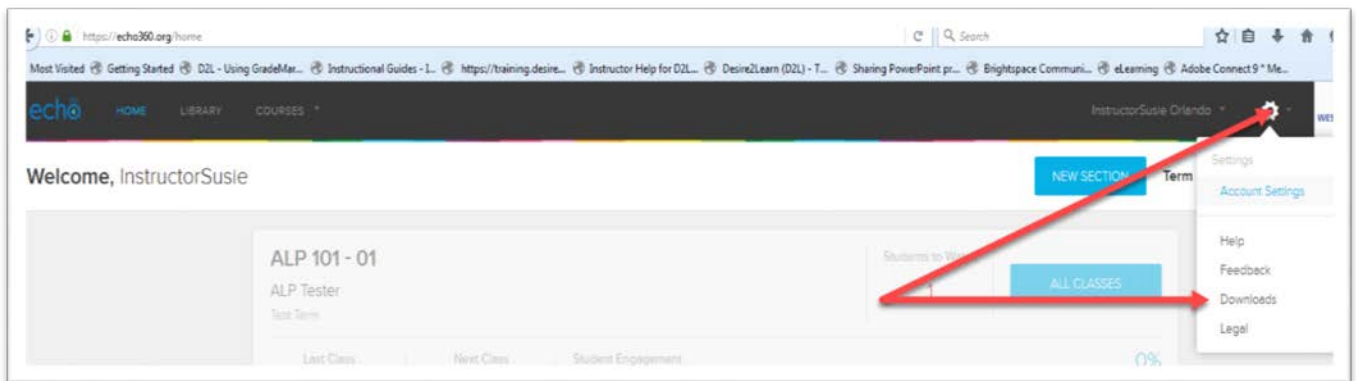

Download Echo360 Personal Capture

To download, Echo360 Personal Capture onto your computer, go to <https://echo360.org>.

Log on with your Echo360 ALP username and password. This is NOT the same as your Western New England username and password.

Note: You need to be an existing Echo360 user. If you are not, please contact edtech@wne.edu to be added as a user.

Click next to the Gear symbol  in upper right corner, and then click on **Downloads**.

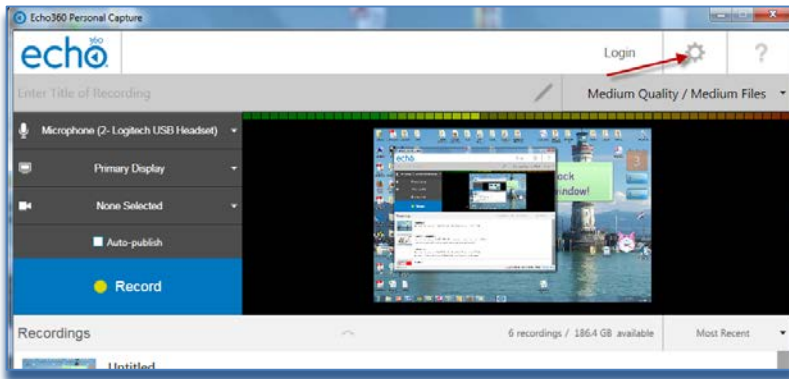

Then choose the appropriate version of the Personal Capture – either for Mac or for Windows.

Save the file to your computer. Then run the installer. After the file has been installed you can delete the installer from your computer.

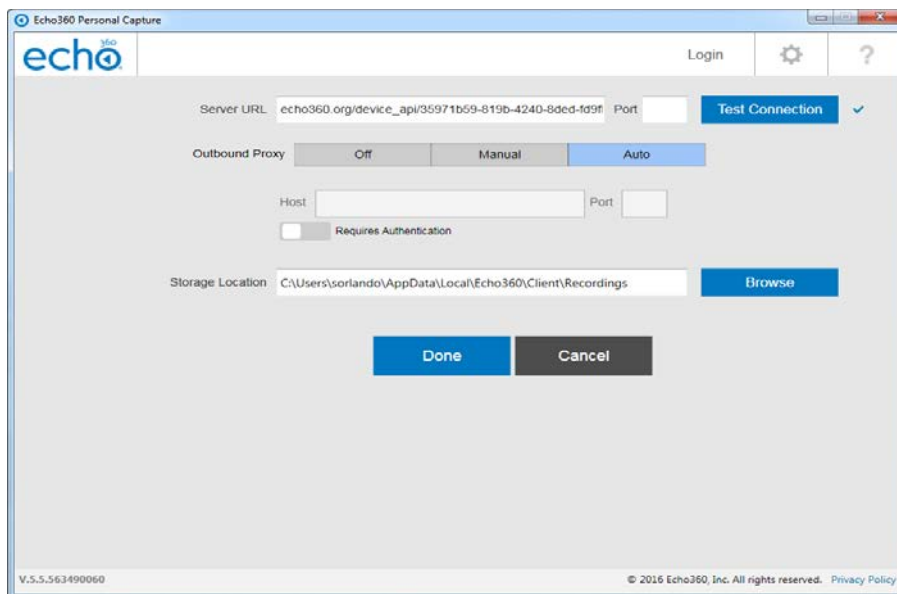

Once installed, Echo360 Personal Capture can be found in your list of programs, and a shortcut to the program will be on your desktop. Enter the application.

Optional:

The first time in the application, click the gear symbol in the upper right of the screen.

*Then click the **Test Connection** Button. If connection to the Echo server is successful, then a blue check mark will appear to the right of the button.*

If connection is not successful, contact Educational Technology & Training for assistance.
