

Kodiak Quick Guide: Student View

Overview

You can view your course as your students will see it. However Kodiak's Student View does not allow you to do things like take quizzes or surveys, or submit work to a Dropbox folder. Student View is most useful for viewing your Content organization and News items.

Viewing Courses as a Student

1. From anywhere in your course, click your name on the right side of the thin blue minibar at the top of the page.
2. Click View as Student. You will be returned to the Course Home page for the course and the words "as Student" will appear next to your name in the minibar.

Cancelling Student View

You'll need to cancel student view to make any changes to your course.

1. From anywhere in your course, click your name in the minibar to open the drop-down menu.
2. Click the X next to "Viewing as Student"
