Blumberg on Corporate Groups, 2nd Edition

The second edition of Professor Blumberg's treatise the Law of Corporate Groups has been renamed Blumberg on Corporate Groups in recognition of the important contribution that Prof. Blumberg has made to corporate law scholarship. Producing the second edition required taking a seven volume hard-bound treatise and reducing it in size to five loose leaf volumes while at the same time updating and revising the existing work and adding new material in light of changes in the law. The treatise was published in the fall of 2004.
