

LAW 670 – UCC Survey (Gouvin)

First Assignments

For the first two sessions of the course, please read the "Roadmap of Article 2" material that I have placed in the "Course Materials" area of the TWEN site. We will go over the problems in that material, so read the UCC provisions closely.

I plan to focus throughout the term on applying the UCC to problems and will require every student to participate in class. I will start on the class roster with students whose last names begin with "A" and proceed through the list alphabetically until everyone has analyzed a problem, then I will begin again at "A.". You will be "on duty" several times throughout the term.
