

Usability Study Scoring Sheet							
Participant / Recording # _____							
	Task goal	Did participant complete task successfully (Y/N)	If no, why not (terminology, layout, etc.)	Did the participant take the optimal path (Y/N)	How many clicks (versus click for optimal path)	How many mistakes (incorrect clicks)	General observations
Task #1							
Task #2							
Task #3							
Task #4							
Task #5							
Task #6							
Task #7							
Task #8							
Task #9							
Task #10							
Task #11							
Task #12							
Task #13							
Task #14							
Task #15							
Task #16							
Task #17							
Additional Questions / Observations							
Where did the participant tend to look more (side bar, top, middle buttons, etc.)?							
Did the participant appear to read what they were looking at?							
What was the participant's reaction when confused?							
Did the participant tend to scroll more or less?
